

**Application for Hybridoma Development Collaboration**

Please complete the following questionnaire regarding the antigen you wish to develop an antibody to.

Contact: _____
Research Facility: _____
Phone: _____ ; Fax: _____
E-mail: _____

Please describe the antigen target for the antibody you wish to develop, including any properties that may make it unique in the marketplace:

---

---

---

---

---

Have you tried to develop an antibody to this target in the past? If so, Monoclonal or Polyclonal? Was it successful?

---

---

---

---

---

How difficult is it for you to source the antigen? Do you have a limited supply?

---

---

---

---

---

Please describe the research uses you predict for this antibody once developed:

---

---

---

---

---

Please describe what, if any, diagnostic applications you predict for this antibody once developed:

---

---

---

---

---

Are antibodies to this target available currently? If so, have you tried them? What was your chief complaint about them?

---

---

---

---

---

Please attach any experimental data or results that may be helpful in understanding the potential applications for this development project.
